

## **Biodiversity Program Manager Ecosystem Marketplace**

The Ecosystem Marketplace is seeking a Program Manager for our Biodiversity Program. For more information about Ecosystem Marketplace, see: [www.ecosystemmarketplace.com](http://www.ecosystemmarketplace.com) .

The **Biodiversity Program of the Ecosystem Marketplace** tracks the developments in the emerging markets for biodiversity. These markets fall into three categories: regulated compensatory mitigation, voluntary payments or offsets, and public payment programs. The Biodiversity Program follows the emerging markets in each of these areas and provides related information, news, and analysis to it's readers on the Ecosystem Marketplace. The regulated compensatory mitigation markets some of the most developed payments for biodiversity and thus a major focus of the Biodiversity Program.

### **Roles and Responsibilities:**

1. Manage Ecosystem Marketplace's Biodiversity program
2. Research and produce the first annual 'State of the Market' report for mitigation banking. Report will focus on the US mitigation credit market but will also include chapters on international programs.
3. Launch a second round of data collection on US species credit trading to update the soon to be launched Speciesbanking.com. This research will likely dovetail with the 'State of the Market' report.
4. Update and maintain biodiversity-market information in the EM's Marketwatch section.
5. Assist in brainstorming new topics to be commissioned for feature articles
6. Attend and represent Ecosystem Marketplace at relevant conferences
7. Guide the growth and development of Ecosystem Marketplace's research, articles, and reports around biodiversity
8. Work as a part of a team to raise funds for program activities

**Qualifications:** Graduate degree preferred. Knowledge of and/or experience with wetlands banking, species banking and other payment for environmental services markets preferred. Excellent research, communication, writing and organizational skills; must be able to work independently. Good working knowledge of MS Excel.

**Location:** Washington, DC (Flexible)

**Contact:** Kate Hamilton (khamilton@ecosystemmarketplace.com)
